

## Life, Health, Disability and ERISA

The Life, Health, Disability and ERISA (LHD&E) group represents insurers, employers, brokers, re-insurers, third-party administrators, self-insureds, ERISA plans and related entities in a wide array of matters that include the routine as well as the unexpected. Our lawyers have a wealth of solid experience and broad knowledge from years of handling complex and unique issues under both individual and group plans.

Whether under the Employee Retirement Income Security Act of 1974 (ERISA) or other federal, state, insurance or regulatory laws, the LHD&E Group brings an unbridled commitment to quick, efficient and aggressive resolution of life, health and disability matters. With extensive trial experience in this area, we are able to deliver results in the courtroom as well as in alternative dispute resolutions. We understand that, while results are paramount, we must also provide our clients with timely, proactive and cost-efficient advice.

### Life, Health and Disability Individual Policies

In the ever-changing landscape of individual first-party insurance disputes, the LHD&E group has been a leader in shaping life and disability case law across the nation. From pioneering the first manifest defense in New Jersey to creating the distinction between "totally disabled" v. "residually disabled" in New York, we have guided clients through the bad faith thicket. We apply our broad experience to pre-litigation claims, providing our clients with solid advice and insight to protect their rights and resolve issues prior to litigation. Our lawyers have a broad range of experience handling a wide range of matters, including:

- Residual disability v. total disability
- Policy interpretation

## ERISA

Comprehensive experience and attention to detail set our ERISA lawyers apart. We are dedicated to helping our clients through the maze of the ERISA statute, regulations and case law and are well-versed in establishing and maximizing ERISA protections. Whether counseling clients as to fiduciary obligations or on plan administration, arguing ERISA applicability or the ERISA standard of review, defending against overbearing discovery requests or claims alleging fiduciary breach (for statutory penalties or ERISA attorneys' fees), we defend insurers, employers, employee benefit plans, sponsors and fiduciaries in confronting the ever-expanding issues and exaggerated claims they face.

We have solid experience in dealing with a wide array of ERISA issues in a variety of contexts, including group welfare benefit plans—life, accident, health, disability, severance and long-term care, among others—as well as pension and retirement plans. We understand the implementation and enforcement of ERISA regulations and their impact on our clients. Our approach to ERISA blends years of experience with proactive and efficient resolutions. We provide legal advice and handle ERISA matters in the following areas:

- Benefit entitlement
- Plan interpretation and administration
- Plan amendments
- Breach of fiduciary duty
- Conflicts of interest
- Discovery outside the administrative record
- Standard of review
- Exhaustion of administrative remedies
- Claims for restitution of plan benefits
- Statutory penalties
- Attorney's fees
- Preemption
- Removal
- Employee benefit plan design
- Summary plan descriptions
- ERISA exemptions: church and government plans
- Compliance issues

## Health

Our group has the experience to help clients navigate through this healthcare minefield. Recent changes in the law, as well as decisions by State and Federal courts, are shifting the way healthcare is being delivered and paid for, which exposes payers to liability, while eroding existing protections. We have extensive experience representing and counseling in various areas of healthcare law, including:

- Establishment of new healthcare networks
- Out-of-network coverage disputes
- Healthcare network contractual disputes
- Provider litigation
- Benefit entitlement
- Compliance Issues under ERISA, PPACA, fraud and abuse laws and pertinent regulations
- Healthcare antitrust claims
- Fraud
- Medicare and Medicaid fraud and abuse
- RICO
- HIPAA analysis and implementation
- Coverage issues
- Bad faith
- Breach of fiduciary duty
- Plan interpretation
