

Coverage College Celebrates Its 10th Anniversary

9.22.16

White and Williams' Coverage College celebrated its 10th Anniversary on September 22, 2016 at the Pennsylvania Convention Center. For ten years, Coverage College has provided insurance professionals the opportunity to participate in a diverse curriculum of insurance liability and coverage topics.

The College offered 16 Masters Classes on topics including drones, bad faith, trends in privacy and cybersecurity, reinsurance, and class action coverage issues. In addition to the Masters Classes, a panel which included the Honorable Thomas M. Blewitt and Jed D. Melnick, both affiliated with JAMS, discussed strategies for obtaining effective results at mediation.

The tenth annual educational program for the insurance industry was celebrated throughout the day as students networked with one another as well as the College's faculty and exhibiting sponsors. Gale White, Dean of the College, was honored for all of her efforts over the past decade. The College concluded with a cocktail reception where students showcased their basketball skills in the "Coverage College Shootout" for a chance to win \$25,000.
